HISTORIC AMERICAN BUILDINGS SURVEY

WATTS LOG HOUSE

HABS No. MO-1782

Location: Grandad Springs, South of Gravois Mills, Morgan County, Missouri

HISTORICAL AND ARCHITECTURAL INFORMATION

The following information was recorded by Alexander Piaget and Charles van Ravenswaay at the time the photograph was taken:

Built ca. 1870s.

One room log house with off-center door; shed addition in the back, and front porch covered with split shingles. Trees of relatively small diameter used, squared, and V-notched, leaving wide spaces between the logs filled with mud and rubble, and on the exposed walls covered with short lengths of boards. Small, four-paned window on the exposed wall. No fireplace, a stove flue near center of ridge.

PROJECT INFORMATION

The Piaget-van Ravenswaay Survey consists of a number of photographs, primarily of sites and structures in Missouri, which were taken before 1938 by Alexander Piaget and after that by Paul Piaget, both in conjunction with Charles van Ravenswaay. Photographs of buildings were incorporated into the HABS collection in 1985 by Laura Rupp and in 1986 by Deborah Fulton, HABS historians. A master list is available in the [REDACTED] records for MO-1800.
